

SI NO	NAME	REG NO	DEC 2025 PROJECT - STATUS SHEET - DEPT OF CSE				TASK UPDATES PLEASE UPDATE YOUR TASKS ONLY. DO NOT EDIT ANY OTHER DETAILS IN THE SHEET										0-4-2026
			PHONE NUMBER	EMAIL ID	GUIDE NAME	BATCH NO	PROJECT TITLE	23-12-2025	24-12-2025	25-12-2025	26-12-2025	27-12-2025	28-12-2025	29-12-2025	30-12-2025	31-12-2025	
1	R. Eswar Sai Kumar	221FA04191	9059949131	eswarkumar4254@gmail.com	Dr. K.V.Krishna Kishore	B276	AI	completed the model training on the mtcars dataset	completed mtcars for prediction recommendations and suggestions	Holiday	completed mt dataset and working on opensource ai model	completed ui interface for mtcars rag application	SUNDAY	completed ui and rag application for cottonmix dataset	Working on the universal RAG model for all kinds of datasets	working on ui interface for the universal RAG application	Working on RAG application for Student form validation
2	Suryavamsi Patibandla	221FA04298	9989313989	patibandlasury9989@gmail.com			BACKEND & TESTING	I've started building a chatbot for the Neuraltrix website	Tested web applications and Completed AI chat Bot for Neuraltrix ai	Holiday	completed RBAC module and learning Flutter flow	completed Testing of VignanTelecalling Bot and created a bot for AI summary	SUNDAY	completed a user behavior model	Completed ui for Neuraltrix AI completed testing on web app	completed user bulk records uploading module	Working on Semantic University Information Extraction System
3	M. Manikanta	221FA04155	7672069471	manikantamondem@gmail.com	Dr. K.V.Krishna Kishore	B277	MAD	Leave	Leave	Holiday	Working on FlutterFlow and connection with firebase	Installed android studio on flutter and downloading SDK	SUNDAY	Developing a basic mobile application using Flutter in Android Studio	Working on mobile app application	Developed Flutter Login page with UI and Animations	Working on RAG application for Student form validation
4	Ch. Sai Viswanth	221FA04207	9398433672	viswanthchirumamilla@gmail.com			AI	working on model training on the Machine Failure dataset	working on model training on the Machine Failure dataset	Holiday	completed RAG for Machine failure dataset	Leave	SUNDAY	Completed RAG application for Cotton Mix dataset	Working on Universal RAG model for all kinds of datasets	Working on Universal RAG model for all kinds of datasets	Today I have completed voice interaction between agent and user and added multi-modal language as well as evaluation of
5	A.Deepthi	221FA04610	8247742297	alladeepthi451@gmail.com	Dr. K.V.Krishna Kishore	B278	FSD	gathered one of the task of Ai Interviewer i.e build an conversations between user and agent.	completed camera module with facial recognitions	Holiday	Leave	Leave	SUNDAY	created a proctored room and tried to enter the agent into room and created an 3D Avatar	working on voice module with Avatar	working on voice agent to convert it from terminal to browser for interview agent	voice interaction between agent and user and added multi-modal language as well as evaluation of
6	M.Vyshnavi	221FA04704	7981930108	vyshnavimusalamadugu@gmail.com			AI	Completed the project documentation after Identifying workflow of the Functional Requirements	working on agents and avatars	Holiday	Converted an agent text to speech by using API and working on Unity tool for Avatar creation	completed agent by using GROK API and working on avatar specifications.	SUNDAY	Working on AI Agent Avatar Assistance	Working on building and creating an Avatar with some gestures	Ensuring both UI and CLI follow the same backend execution path.	went near guide to get update for existing work and went for zeroth review
7	R.Avinash	221FA04683	9392524267	randhiavinash9@gmail.com	Dr. S V Phani Kumar	B279	AI	Prepared the project documentation	working on pop ups and notifications	Holiday	working on camera module and made camera to work and added a camera access pop up to it	created popups on camera screen and make it detect the unusual activities and generate a popup message on the screen	SUNDAY	Working on camera module and generated a popup message when ever multiple persons detected in the camera frame.	By using COCO-SSD pre-trained model made the system to detect the mobile phone during the interview monitoring	working on camera module and added screensharing module for existing code with different constraints.	Attended the zeroth review and went near guid to get update for existing work
8	Sri Manjunadh.D	221FA04721	7032179004	221fa04721@gmail.com			AI	Analyzed the Technical Requirements and Identified optimized ways to reach project destination	Completed voice based AI Interviewer Agent based on Resume	Holiday	Leave	converted RAG application to API	SUNDAY	Developed the API application To access the Resume And ask question according to it	Trained the Interview agent and extracted confidence percentage,grammar percentage from it	working on the Interview agent Made changes in the input voice and changed the input to Whisper	went near guide to get update for existing work and went for zeroth review
9	V.Sarithya Lakshmi	221FA04049	8074659905	sahithyalakshmivoleti@gmail.com	Dr. S V Phani Kumar	B280	MAD	Identified the Functional and Non-Functional requirements of the projectand prepared the document	converted text to voice based AI Interviewer Agent	Holiday	creating an avatar for interview agent training to make it responsive	working on agent building, training and authentication.	SUNDAY	Working on the Agent Building	LEAVE	LEAVE	went near guide to get update for existing work and went for zeroth review
10	Shaik Javed Ali	221FA04071	8247713003	shaikjavedali19@gmail.com			MAD	Identified the workflow of the Project and System Requirements	working on random question generating based on resume	Holiday	working on academic agent ai and training.	working on database creation in firebase and academic agent API key integration	SUNDAY	Working on Camera and avatar	Working on Agent training of Interview AI agent	Working on agent of interview AI with proper format and save some of the website references for agent training and	went near guide to get update for existing work and went for zeroth review
11	Ch.Poojitha	221FA04356	8074084038	chpoojitha257@gmail.com	Dr. S V Phani Kumar	B281	MAD	Leave	worked on Frontend application and researched on Technical requirements of academic agent	Holiday	Worked on adding of SAAS Login page along with registration and forgot password page. Made sure the redirect feature is	Leave	SUNDAY	started service page redirection and redirection of layout for Mobile & App Engineering service and SaaS Service.	worked on service page rendering and correction on Mobile and App Engineering service and SaaS Service.	Completed integration of sample template to mobile and app engineering	Sample template integration into Sub-categories services like Mobile & App Engineering, AI and Machine Intelligence
12	K.PERCY JYOTSNA	231LA04005	9492463918	jyotsnajyotsna24@gmail.com			FSD	completed integration of pages	Leave	Holiday	1 SUB categories-FOR CONTAINERS(SERVICES) 2-SAAS INTEGRATION PARTIAL	services shifted from home to services and header also fixed for all pages HASHROUTING-STARTED	SUNDAY	header redirection to index page.started service pages redirection for API and Enterprise Solutions	worked on page redirection on services i.e API & Integration Services and Enterprise Products	sample template modeling for the sub services and added hovering function newly to a container, and started working on sub	sample template modeling for the sub services and added hovering function newly to a container, and started working on sub
13	V. Lakshmi Sravya	221FA04330	9347644029	sravyavajja3@gmail.com	Dr.E. Deepak Chowdary	B282	FSD	completed integration	I searched for and selected the required images for the website services	Holiday	Worked on designing flowchart image and implemented mobile-responsive login and registration pages	SAAS APPLICATION (60%) starting 3-D IMAGE GENERATION FOR SERVICES	SUNDAY	redirection and modification of layout for AI & Machine Intelligence,Data & Insight Services	Worked on corrections for AI & Machine Intelligence and started working on sub services	Completed integration of sample template of services like Growth & Automation, SaaS Demo & Launch Systems	sample template modeling for the sub services and started working on sub services
14	A.Krishna Keerthi	221FA04357	9963799688	krishnakeerthialluri@gmail.com			FSD	completed integration of pages	completed the containers required for the Home and Web services	Holiday	1 SUB categories-FOR CONTAINERS(SERVICES) 2-SAAS INTEGRATION PARTIAL	Leave	SUNDAY	Changed mobile view navbar & Started Service pages redirection	worked on page redirection on services i.e Digital Experience Studio and Growth & Automation	Completed integration of sample template to main service pages i.e. API & Integration Services, Enterprise Product	sample template modeling for the sub services and added hovering function newly to a container, and started working on sub
15	Ch.Sathvika	221FA04474	9603550044	sathvikach2004@gmail.com	Dr.E. Deepak Chowdary	B283	BACKEND	Leave	Leave	Holiday	Exploring flutterflow.io and developed web based application	Installed Android Studio and Flutter	SUNDAY	Developed and completed basic school application with functionalities	implementing the complete frontend with updated ui by taking the refrence images	Developed flutter ui screens for the login page with animations	implementing ui screens for the student dashboard page and functionalities
16	Ravi Teja Vaka	221FA04514	8185864150	ravitejavaka81@gmail.com			BACKEND	Leave	Leave	Holiday	Exploring flutterflow.io and build a basic web application	Installed Android Studio and Flutter app	SUNDAY	develop and completed the school application with whole student side functionalities	Implementing the backend for the school application	implementing backend and start connecting modules to frontend for the school application	implementing backend and frontend parallelly start building techer side functionalities
17	N.Sree Vijay	221FA04447	8985400242	nsreevijay@gmail.com	Dr.E. Deepak Chowdary	B284	BACKEND	Completed the Backend Required For the User activity logs and started basic for new backend project	Holiday	Leave	Completed the Login and user logs backend using DJANGO	SUNDAY	completed django	LEAVE	Completed the backend module required for website and integrated all modules into one	Completed the backend module required for website and integrated all modules into one	
18	M Sumanth	221FA04454	9160544895	sumanthofficial2626@gmail.com			BACKEND	completed integration of pages	completed the containers required for the Home and Web services	Holiday	Mongo DB Testing and sub categories-for SERVICES , SAAS Integration partial	security authorization testing on demo project videos(75%) 3-D IMAGE GENERATION FOR LOADING	SUNDAY	completed security authorization on demo project videos with complete working - started backend	completed backend for saas	Completed the backend module required for website and Tested the full backend	Completed the backend module required for website and Tested the full backend
